

CARD CLEANING MODULE

The card cleaning module on the MX6000 system cleans the card in the system prior to any graphics printing or color printing. This module provides a dual cleaning system that removes damaging dirt and dust contaminants from the card with an efficient, cost-effective process ensuring greater card cleaning results.

- Only one cleaning module is required per system, even when multiple graphics printing, color printing, or Artista® VHD retransfer color printing modules are installed.
- Two sets of double rollers provide superior card cleaning capability
- The module cleans the entire surface of the card, front and back in a single pass
- A range of cleaning cycle settings can be adjusted to meet operational needs
- Large supply rolls minimize reloading downtime
- Intelligent Supplies Technology™ feature enhancements improve card production efficiency and increase ribbon conservation to help minimize cost per card

Card Cleaning Module Specifications		
Module Functionality	Cleans the card; required prior to graphics or color printing	
Rated Speed	Up to 1,500 CPH	
Cleaning Area	Entire front and back surface of the card is cleaned twice in one pass	
Intelligent Supplies Technology™	Intelligent Supplies Technology™ is enabled in this module when used with Datacard® Certified Supplies. Features include: <ul style="list-style-type: none"> • Automatic supply recognition • Supply low notification • Optimized card production through cleaning cycles 	
Operator Supply Notifications	Supply low* Supply out Supply break Supply load prompt * Available only with Datacard® Certified Supplies featuring Intelligent Supplies Technology™	
System Configuration	<ul style="list-style-type: none"> • Only 1 module per system is required; multiple modules are allowed • Required when graphics printing, color printing, or Artista® VHD retransfer color printing modules are installed in the system • Recommended as the first module in the system after the card input module • Utilizes the same supplies as the Datacard® Maxsys® card issuance system 	
Card Types Supported	ISO/IEC 7810 ID-1 Size: 30 mil (±10%) Alternative card thicknesses can be made available upon request	
Card Materials Supported	See system level specifications; no further limitations	
Module Dimensions	50.1 in. H x 10.0 in. W x 27.0 in. D (127.3 cm x 25.4 cm x 68.6 cm)	
Weight	132.0 lbs (59.9 kg)	
Current Draw	0.58 Amps at 230V	
Heat Output	Average of 439 BTUs per hour	
Card Cleaning Module Supplies		
Cleaning Supplies featuring Intelligent Supplies Technology™		
Item Number	Description	Approx. Card Yield
559791-501 (Roll)	Cleaning tape	23,500
586658-002	Cleaning roller (4 rollers required per card cleaning module)	200,000
*Yields are based on fully optimized cleaning cycles. Actual yields may vary.
